

You will be commenting on proceeding:
"02-278". After filling in some
preliminary information, there is an
option at the bottom of the page to
type in your comments for submission to
the FCC.

If you send them your message, you may
want to consider mentioning the
following:

- That the FCC should not implement
any proposal that would lessen
Indiana's Telephone Privacy law
protections.

- How Indiana's Telephone Privacy law
has improved your time at home.

- How effective Indiana's law has been
(e.g., "I used to receive 12 calls per
week, now I only receive one").

- Any of your personal views about
the importance of Indiana's law.

Please leave the law as stands,,,My phone has finally gotten quiet...My nerves
have not needed the help of Prozac from all the phone calls that I was
receiving...Changing my number several times did not stop them, getting my phone
unlisted has helped greatly but hate it because I have to pay the expense of
someone else's stupidity....When I want something I do local or find my own
source. I would never buy from someone over the telephone, because when I did
get the calls I made a list of the calls and if that company had the one thing
that I needed...I WOULD DO WITH IT BEFORE I WILL EVER BUY FROM SOMEONE THAT HAS
BOTHERED ME AT HOME WITH THEIR PHONE CALLS. Please do not let these people
continue to ruin our private home pleasure of quietness away from the rat race
of business by giving them the right to call our homes. Please do not allow
them to make those calls. Diane and Tom Lane... Diane is a Stroke victim that
does not need the extra stress that the calls cause her.
